# ABOUT US

Dalia Taha is an Engineer & designer by profession who spends her day at construction sites as a project Management . Her attention to detail and her passion for art and design led her to establish an international events and wedding planning company - 'by.daliataha' in 2015 in Qatar.

She brings her education and experience in engineering and project management and her love of art into the world of events and weddings. So far, she has successfully coordinated and executed more than a hundred weddings & events with her unique signature of merging arts and engineering in one beautiful piece of work.

Her designs are inspired by different cultures, astonishing her clients with memorable and dreamy occasions.
